STOCK CERTIFICATES

Present New Problem For Stock Exchange Of Honolulu

RUBBER STAMPED DUPLICATES ARE NOT IN FAVOR

SPECIAL COMMITTEE NAMED TO INVESTIGATE SUBJECT—THE ATTITUDE OF CORPORATIONS

What is the status of the duplicate certificates of stock issued for those supposed to have been destroyed by fire, or lost beyond the possibility of the attention of the iocal Stock Exchange, particularly since the San Francisco fire. And an investigation committee is at work to assist the Stock Exchange in taking some definite action.

When stock certificates are destroyed by fire the corporation involved issued a new certificate on satisfactory proof that the original is lost. During the San Francisco fire hundreds of certificates were destroyed. Under a ail rules of chance there is little or no prospect that any of those believed to have been destroyed. The same proposed to that any of those believed to have been destroyed. Under a ail rules of chance there is little or no prospect that any of those believed to have been destroyed at least one of the corporation involved issued as new certificates were destroyed. Under a ail rules of chance there is little or no prospect that any of those believed to have been destroyed at least two to have been des Stock Exchange in taking some definite action.

When stock certificates are destroyed by fire the corporation involved issues a new certificate on satisfactory proof that the original is lost. During the San Francisco fire hundreds of certificates were destroyed. Under all rules of chance there is little or no prospect that any of those believed to have been destroyed will ever turn up again.

again.
Yet there is always the chance. Yet there is always the chance. A certificate in proper form is a negotiable instrument and if a man picks a sugar stock certificate from the debrished sees it to sell it, there is nothing to prevent him, except the possibility of its being learned that he is dispusing of other people's property. Then comes the question of where the man with the duplicate certificate comes off. The duplicate cannot be as good as the original.

original.
Some of the local corporations have got around the matter for the time being by placing a rubber stamp notation on the new certificate stating that it is a duplicate issued for such and such a number destroyed by fire.

This duplicate certificate with the This duplicate certificate with the stamp explanation some brokers.

refuse to accept. They claim that the very presence of this explanation clouds the fittle, it means to them that the certificate for which the duplicate was issued may turn up again some day, and the man with the original will of conrac have the best of . The rather stamp notation will rot bring the money back to the person who has bought it. The brokers want a clear certificate or nothing. Officers of certain corporations stands behind the rubber-noted certificate. This position satisfies the doubtful brokers, if the officers of the corporations will put the statement in writing, so that it will constitute a

Judge Kingsbury Assails Prosecution in the Wainee Trial

If this is done by the corporation the reappearance of a certificate supposed to have been destroyed would place upon the corporation the responsibility for having over issued its stock. In this case the person holding the duplicate would have some redress.

The various banks and trust companies of the city have been asked for their opinion and it has varied from absolute opposition to acceptance of the rubber-stamped certificate, to belief that it may be all right.

At the trial of George Waince before Judge to Edit this morning, on a charge of murder in the first degree, the prosecution closed its case and the action was the occasion of a lively little controversy between the attorneys for the prosecution and the defense. Judge Kingsbury, for the defense, accused that it may be all right. rubber-stamped certificate, to belict that it may be all right.

The brokers are after definite action on the part of the local Stock Exchange. If the Exchange after thorough investigation declares that the outling the complete that the second that on this account he (Judge and that on this account he (Judge will of necessity have to accept it and there will be no further question.

Something definite is needed. The necessity is well appreciated when one looks over the San Francisco stock list and sees the hundreds of Hawaiian plantition stock certificates advertised as loss.

In charge of a second that the latter announced yesterday that the latter announced yesterday that the would not complete the testimonic which he had to offer till the session was completed to december to offer till the session was completed to offer till the se
